

UPDATE FOR 5 YEAR PAVING PLAN

Due to the current economic situation facing the Town of Harwich, the Highway Department has suspended the implementation of the program until further notice. When funding has been restored this plan will be rewritten and updated.

5 YEAR PAVING PLAN

Developed 10/2005

TOWN OF HARWICH Division of Highways and Maintenance

This plan was developed with numerous assumptions that may change over time. For instance, roads that appear to be in good condition today may, after a severe winter, accelerate their deterioration and require unplanned attention. Obviously, the plan itself is contingent upon obtaining adequate funding and adjustments will have to be made to account for shortfalls when they occur.

5 YEAR PAVING PLAN

Developed 10/2005
